It ensures vibrant colours, rich in details and crystal clear images and a genuine contrast, even in bright environments. It offers a native resolution Full HD (1920 x 1080 pixels) and it's compatible with the 4K format so you can watch videos and movies in 4K Ultra HD resolution with no issues. It can be used for presentations thanks to its great brightness level and its resolution features. It has a lot of connection ports, such as 2 HDMI, 2 USB, VGA, AV terminals and audio out 3.5 mm, so you'll be able to connect a comprehensive list of devices: PC or laptops (Windows and Mac), PS3, PS4, Wii, Xbox, Android TV Box, DVD or Blu-Ray player, USB sticks, external hard drives, tablets and smartphones (Android or iPhone), among others. YABER YB1 is compatible with Chromecast, Fire TV Stick and Roku, so you can mirror the smartphones' screen wirelessly and watch series, movies and videos from Netflix, Amazon Prime Video, HBO, YouTube, and many others. Its 5W dual stereo speakers with Hi-Fi sound allows you to get a high sound quality, so the external speakers are no required. However, if you want to, you'll be able to connect an external speakers in order to get a more richer sound experience. You'll get a giant screen up to 300 inches and thanks to its zoom function 100% – 50% you will be able to adjust the image without moving the projector. In addition, it has a ±15° vertical keystone correction so you will be able to get a perfect image with no distortion. It has a really good performance with low noise (25dB – 35dB) and a powerful and effective cooling system with triple fan built-in. YABER YB1 has a great value for money, is easy to use and includes everything you need to use it as soon as you have it in your hands: HDMI, VGA and AV cables.
